

# Assessing the Composition of Your GSPC

---

Use this worksheet to help your GSPC identify which groups of families are currently represented, and which ones you would like to recruit.

Tips for using this worksheet:

- Lead your group in brainstorming all of the family types or groups that are represented or could be represented on your GSPC.
- Put a \* next to those that could bring particularly important resources to your GSPC.
- As a group discuss: What can we say about the diversity and representation of our GSPC? What does this mean for our GSPC's ability to work in this community? What steps can we take next?

Parent Groups (e.g. different ethnic/cultural groups, neighborhood/community area, family composition (e.g., single parents, foster parents, kin care)	✓ if this group is represented on the GSPC	✓ Check if this group is not currently represented but might be recruited from your community
